eTwinning project - Hate speech. A journey through words and emotions - cyber-bullying"

<https://twinspace.etwinning.net/129010/home>

"Hate speech. A journey through words and emotions- cyber-bullying"

It is a project that aims to help students become aware of the negative effects of cyberbullying on emotional health and their development. Therefore, we aim to help students, to develop skills to prevent and combat the phenomenon of cyberbullying as a component of bullying, to help them develop a preventive behaviour and to provide parents and teachers with ways to intervene, for the prevention of this type of behaviour. They will be able to understand how cyberbullying manifests itself, where these types of behaviors occur (at school, outside of school, online) and how not to become victims. Students will also understand the purpose of aggression, how aggressors behave and how to protect themselves in the virtual environment.
